EXT. ANOTHER PART OF THE CLOUD FOREST - LATER 7
Elinor, Olive and Silas are looking around. Ari is fluttering above.

SILAS 88
There are so many plants growing everywhere.

Ari reacts to a plant with **SPIKY** LEAVES growing on a branch.

ARI 89
Yeah. This one's growing on a branch!

EMW206A 'Just Mint' Record Draft 12.

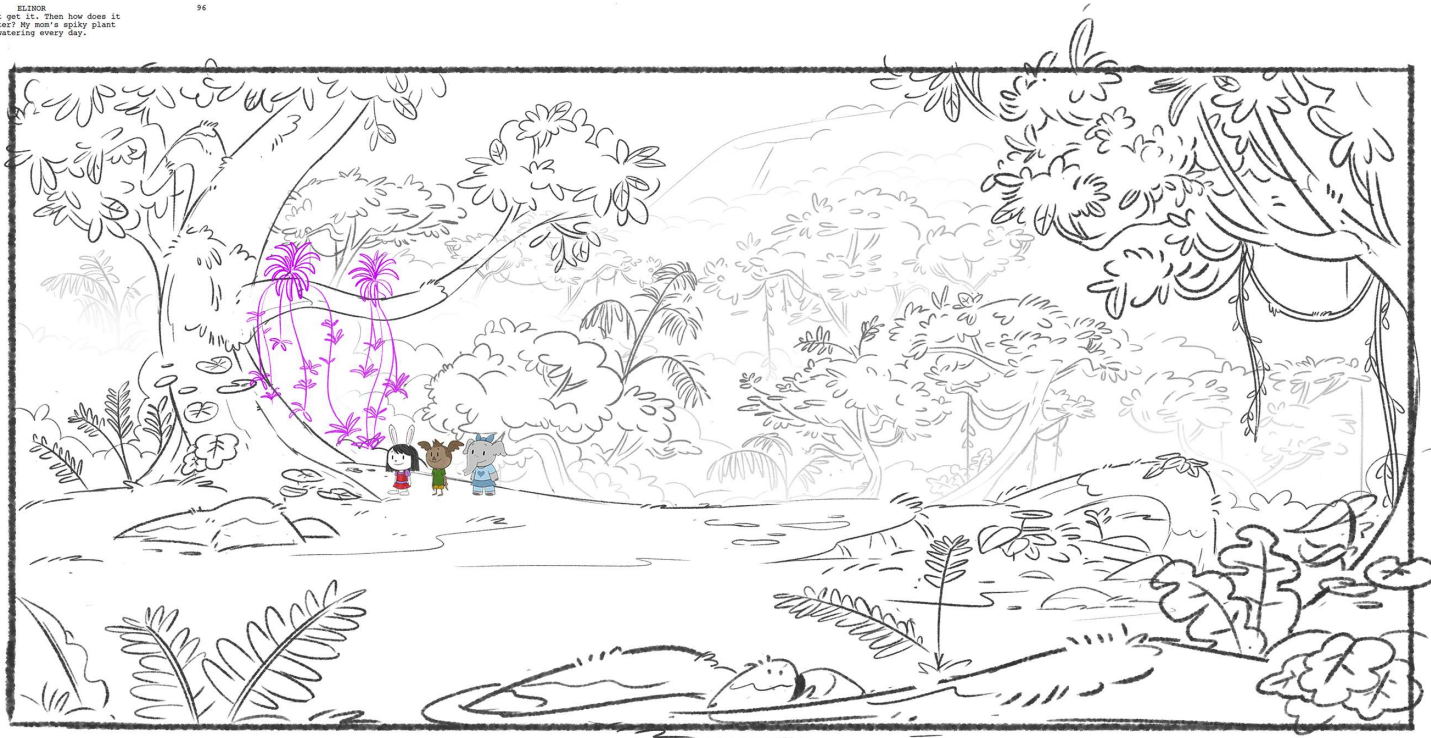

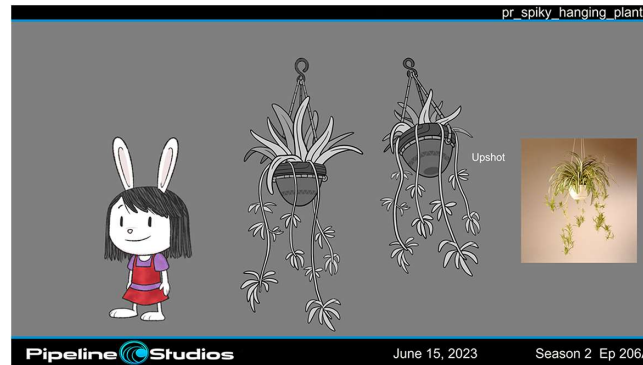

94 ELINOR 94
But how can it grow without any soil? Where do the roots go? Let's look closer.

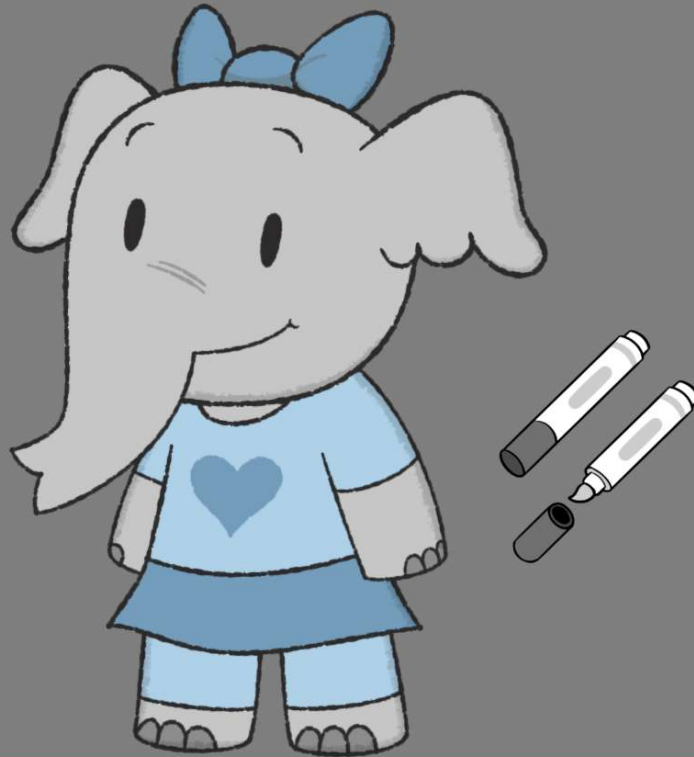

Ari points at some roots that run down the trunk of the tree.
Olive looks at the roots and then draws.

95 OLIVE 95
Huh. The roots stop on the trunk. They don't go to the ground.

She holds up her drawing which shows the roots coming down the tree trunk and stopping.

96 ELINOR 96
I don't get it. Then how does it get water? My mom's spiky plant needs watering every day.
